PROFILE

Eager to leverage my fresh perspective, adaptability, and strong work ethic to tackle challenges head-on and drive tangible results.

A proactive and quick learner, armed with a diverse skill set and a relentless determination to excel in any given role.

EDUCATION

B.Tech, Manipal Institute of Technology

Mangalore

Jul 2018 — Aug 2022

Graduated in Information Technology B.Tech.

PROJECTS

Text Editor

Jan 2022 — Jun 2023

<https://github.com/ishan9299/editor-opengl>

This is a text editor written from scratch in C using the Win32 API. It has a custom text rendering engine which generates a texture atlas of a font and uses batch rendering to render text.

Tasks Application

May 2023 — May 2023

<https://github.com/ishan9299/Tasks>

This is Tasks Web App written in Go Programming Language. It uses MySQL database to store the data.

React Form

May 2023 — May 2023

<https://github.com/ishan9299/React-Form>

A submission form made with react-hook-form. It stores the submission data in a MongoDB database.
